

Certificate of Analysis

Lot: SAMPLE

Description: Rabbit Factor Xa

Concentration: 1.96 mg/ml (before lyophilization)

Aliquots: 1 x 0.10 mg

Volume/aliquot: 0.051 ml

Activity: 188.60 IU/mg

Total protein: 0.10 mg

Buffer: 20 mM Tris-HCl/ 0.7 M NaCl/ pH 7.4

Storage: (°C

Expiration Date:

PO: N/A

Rabbit Factor Xa is prepared from homogeneous Rabbit Factor X by activation with Russells' Viper Venom. This RVV-X is removed after activation. Complete activation is observed via SDS-PAGE.

We suggest hydrating the protein with water to the original volume.
