

ANALYSIS CERTIFICATE

For laboratory use only

Imidazol Buffer with Polybrene – #AR021L- P

Contains 0.05M Imidazole, pH 7.4

Lot: xxxxxxxx Expiration date: xxxx-xx-xx

Analytical data	Specifications
<u>Hemoclot® Thrombin Inhibitor calibrated on argatroban</u> Plasma with approx. 2 IU/mL UFH: $\leq 0.05 \mu\text{g/mL}$ Plasma with approx. 2 IU/mL LMWH: $\leq 0.05 \mu\text{g/mL}$ <u>Hemoclot® Thrombin Inhibitor calibrated on dabigatran</u> Plasma with approx. 2 IU/mL UFH: $\leq 20 \text{ ng/mL}$ Plasma with approx. 2 IU/mL LMWH: $\leq 20 \text{ ng/mL}$ Polybrene (Hexadimethrinbromid) concentration: 20 $\mu\text{g/mL}$ Unopened reagents should be stored at 2–8°C in their original packaging. Under these conditions, they may be used until the expiry date printed on the kit label. After opening, reagents remain stable for 60 days at 2–8°C, provided they are stored tightly closed and protected from contamination and evaporation. H360D: Imidazole: May damage the unborn child Contains preservatives and stabilizers.	$\leq 0.05 \mu\text{g/mL}$ $\leq 0.05 \mu\text{g/mL}$ $\leq 20 \text{ ng/mL}$ $\leq 20 \text{ ng/mL}$
